**WallMaker®**
Create an unlimited variety of bright, beautiful and secure interior environments with the easy-to-install Stylmark WallMaker glass wall system. This versatile system consists of headers, sills, mullions and corner assemblies that allow you to create a multitude of glass wall configurations. With minimal parts and a simple snap-together assembly process, installation of WallMaker is fast and easy. WallMaker components can be anodized to meet all your color specifications.

**Glass Clips**
Stylmark’s glass clips provide added strength to interior glass walls by holding the panels of glass in line with one another. The clean, simple lines of our clips also enhance the appearance of glass walls and they can be ordered in a variety of colors and finishes to complement your WallMaker system.

**Porsa™ Framing System**
Porsa™ is the only aluminum extrusion framing system that accepts 1/2” thick infill panels, making it ideal for merchandising systems, wall units and other applications requiring strength, stability and dependability.

Glass Clips

Stylmark’s Glass Clips provide added strength to interior glass walls by holding panels of glass in line with one another. These durable anodized aluminum clips provide decorative accents and accommodate 3/8”, 1/2”, 5/8” and 3/4” thick glass panels. The clips install easily with screws and plastic insulators to protect the glass from fractures or chips. Pair Stylmark Glass Clips with our WallMaker system to help meet city building codes and maintain a cohesive, high-quality look.

Porsa™ Framing System

Stylmark is the authorized North American distributor of the Porsa™ Framing System of Denmark. Porsa™ is the only aluminum extrusion system that accepts a 1/2” thick in-fill panel, making it ideal for merchandising systems, wall units and store-with-in-a-store applications. The Porsa™ provides great flexibility - the extrusions and in-fill panels can be reconfigured, changed and moved at a much lower cost than permanent walls or fixtures.

Notes:
• Porsa extrusions sizes are nominal
• Cover caps are available to cover hex key hole
Porsa™ Framing System

Not all Porsa extrusions are 4-sided tube. See pages 22-24 for specific profile information.
