⊞ stylmark®

Shelving

Stylmark's shelving products have clean lines
that provide an attractive accent to any area.
Constructed of aluminum or stainless steel, these
elegant framed shelves are available with or without
lights.

LED Power Track Light Shelf

The LED Power Track Light Shelf provides a low voltage, low maintenance alternative to conventional lighting. The small footprint of the LED emitters allows for a slim profile shelf to maximize viewable merchandising area. With low heat output and no UV, this self-contained lighting unit connects to a Stylmark powered shelf standard and is an ideal solution for cosmetic, crystal, chocolate or fine leather applications.

Shelf Edge

Eliminate unsightly chipped glass with Stylmark's Shelf Edge. This secure edging wraps glass shelving to protect it from chipping while providing a decorative accent. The Shelf Edge is fabricated with smooth, folded corners that provide greater strength than welded corners. It is available in varying depths and lengths for both 3/8" and 1/4" glass.

Flexis™ DisplayMaker - Shelving System

Flexis™ DisplayMaker is the new wall merchandising system from Stylmark. At the core of Flexis is a low voltage powered standard system which enables users to flexibly create a variety of merchandising solutions. This can be achieved by adding Stylmark lit shelves, lit mirrors, monitors, or just about anything requiring a 24volt input voltage. This system allows retailers the ability to re-set and re-merchandise the wall with ease and with no wires, a true plug-and-play solution.

Flexis is not just designed for the perimeter wall of a retail store; Options are available for a gondola fixture. Flexis is available in Stylmark's wide range of anodized finishes allowing designers to capitalize on color as part of their store design.
