

StretchFrame™ Extra Low Profile Non-lit Tension Fabric Display (TFD) Frame

Data Sheet

General Description: Stylmark's StretchFrame™ takes your graphics to the edge, eliminating the conventional framed-in look. Tension fabric graphics are retained using a silicone edge gasket (SEG) fitted into a channel in the aluminum frame.

Applications: Signage in retail, commercial or transportation environments. Way finders in entertainment, museums or restaurants. Interior décor in hospitality, medical and corporate environments.

Key Features:

- Extra-low profile single sided solution for wall signage
- Ideal for small to medium format displays
- Coordinate finishes with Stylmark's wide variety of anodized finishes
- Ships as knock-down kit for easy shipment

Models:

- Single Sided:** □ 690123

Dimensions:

- Profile Depth:** □ 0.695" (17.6mm)
Frame Size¹: □ Custom sizes up to 96" x 96" (2.4m x 2.4m)
Graphic Visual Size: □ Same as frame size
Fabric Cut Size: □ Frame size plus 3/4" (19 mm)
SEG Size: □ 1/2"x1/8" (12.5mm x 3mm)

Construction Features:

- Graphic Holder Type:** Silicone edge gasket (provided with graphic, by others)
Materials: Extruded aluminum profiles, steel hardware
Finishes: See Stylmark Color Library for anodized finish options

Weight²: 0.25 lbs/lin ft (0.37 kg/m) of perimeter (typical)

Mounting/Installation: □ Wall mount

Environmental Specifications:

Protection Rating: For indoor use only

In order to continually improve our products, Stylmark reserves the right to make changes to specifications or materials without prior notice.

¹ For larger format TFD frames or for double-sided TFD frames, see Stylmark's low-profile StretchFrames (models 690318 or 690319)

² Does not include weight of tension fabric graphic
