

Architectural Trim & Molding by Stylmark

With Stylmark's TrimMaker® you can easily add accents to walls, ceilings, soffits and columns to provide a smooth transition between planes.

TrimMaker® is available in quarter rounds, half rounds, rectangulars, and special shapes as crown molding. Group these shapes together to create a custom look, or you can work with the engineering team at Stylmark to design a profile that is perfect for your project.

subtle touches make the biggest design impact

Architectural Trim & Molding

Stylmark understands the importance of color in your branding message. With hundreds of color and finish combinations in our library, you can be assured we will find the perfect color to support your brand.
