

Rolling & Wardrobe Doors

Rolling Doors

For over 50 years the Stylmark rolling door has been recognized as the finest in the industry. These doors move effortlessly at the touch of a finger, while adding security to your showcases. They feature anti-jump, security rolling hardware, which engages the door bottom to flanges on the track and prohibits removal of the door when it is locked.

Wardrobe Doors

Wardrobe Doors from Stylmark are designed to give years of trouble free service. Wheel assemblies are incorporated into the bottom rail, providing a smooth-rolling, long-lasting unit. Additional features include cantilevered rollers to easily accommodate out-of-plumb field conditions and optional security door styles to provide additional protection.

MerchLock™

Stylmark's MerchLock™ secure door system is the ideal addition for safeguarding products on your existing shelves. With a variety of door panel choices and a wide range of anodized finish options, Stylmark ensures seamless integration with your decor.

Rolling Doors

Fully framed security rolling doors are a standard component of the Stylmark aluminum showcase system. Our industry leading doors feature anti-jump security rolling hardware, which engages the door bottom to the flanges on the track. This retainer also prohibits removal of the door while it is locked. Stylmark rolling door hardware and components are available in 12' stock lengths or may be custom fabricated to your specified lengths and requirements.

Ordering Rolling Doors

| Model # | Refer to pages 2-14 of this brochure |
|-----------------------|--|
| Number of Door Panels | For Assemblies Over 63" Wide, Four Doors with a Center Mullion are Recommended |
| Lock Condition | Kenstan, Plunger Lock or Fabricated for Best Lock |
| Opening Size | Width x Height (Door verticals are required on doors over 36" in height) |

- Notes:**
- When ordering rolling door hardware for clipped or curved showcases, please provide shop drawings.
 - Rolling door cabinet hardware can be ordered in stock length material for customer fabrication.
 - Lock and vinyl are sold separately when 12' assemblies are ordered.
 - Door verticals are required on doors over 36" high.

Rolling Doors - Fabricated & Shipped Knocked Down

Rolling doors maybe purchased as knock-down, prefabricated kit of parts (glass / panels not included) or as a kit of stocked length (12') finished extrusion and components.

Rolling Doors

If a door height greater than 36" is needed, vertical moldings are required.

These security rolling door assemblies are for 1/4" panels up to 50 pounds.

Model #610143-01

Features the 110008 header and 110012 shoe. Optional door verticals and jambs are available.

Model #610144-01

Features the 110071 top header (back frame) and 110012 shoe.

Model #610145-01

Features the 110102 top header (back frame) and 110012 shoe.

Notes: • Model # -01 indicates that components are fabricated prior to shipping per customer's dimensions

Rolling Doors

Model #610165-01

Multiple tracks allow maximum usage of opening by stacking the doors for open access.

- Notes:
- Jambs and door verticals are available with fabricated assemblies.
 - Model # -01 indicates that components are fabricated prior to shipping per customer's dimensions

Rolling Doors

Model #610183-01
Features the 110412 shoe with 110102 top header (back frame).

Model #610184-01
Features the 110412 shoe with 110071 top header (back frame).

Model #610185-01
Features the 110412 shoe with 110008 top header (back frame).

Notes: • Model # -01 indicates that components are fabricated prior to shipping per customer's dimensions

Rolling Doors

Security heavy duty rolling doors for 1/4" panels up to 80 pounds. Door verticals are standard, but you may order without. Assembly numbers 610187, 610188 and 610189 require overlapping doors to allow for alignment of door verticals. In this case, a shoe filler is used in the rear shoe. This overlap also enables glass for both front and rear doors to remain the same size (shown in picture inset).

Model #610187-01
Model #610187-02
 Features the 110008 top header and 110140 shoe.

Model #610188-01
 Features the 110071 top header and 110140 shoe.

Model #610189-01
 Features the 110102 top header and 110140 shoe.

- Notes:
- Model # -01 indicates that components are fabricated prior to shipping per customer's dimensions
 - Model # -02 indicates that components are shipped as 12' lengths

Rolling Doors

If a door height greater than 36" is needed, vertical moldings are required.

Note: Door verticals do not align

These assemblies feature the 110350 shoe, which accommodates the 4S Bestlock (supplied by others). Used for 1/4" panels up to 80 pounds. Door verticals are standard, but you may order without.

Model #610190-01
Model #610190-02
 Features the 110008 top header.

Model #610191-01
 Features the 110071 top header.

Model #610192-01
 Features the 110102 top header.

- ① Jamb Included ② 2" Door Overlap ③ 1" Door Overlap
 ④ 9/16" Door Overlap ⑤ 2 1/2" Door Overlap

Door Jamb and Mullions

Stylmark's door jambs serve as a filler when spaces are not completely plumb and provide a vertical accent. Door mullions are typically used for header support and are recommended for spans of 63" or greater. They also serve as a divider and stop for multiple door applications.

Door Edge Molding and Pulls

When completely framed door panels are desired, door pulls and U-channel edge moldings are used, as shown.

Wardrobe Doors

Wardrobe Doors from Stylmark are designed to give years of trouble free service. Wheel assemblies are incorporated into the bottom rail, providing a smooth rolling, long lasting unit. Additional features include cantilevered rollers to easily accommodate out-of-plumb field conditions and optional security door styles to provide additional protection.

Cantilevered Rollers
 These wheels adjust easily to accommodate out-of-plumb field conditions and height variations plus 1 1/2" and minus 5/8"
